MESSAGE FROM PRESIDENT

Dear Seniors, teachers, Friends and colleagues,

I am thankful to all the members for providing me an opportunity to serve as the President of our great association and to follow the footsteps of my beloved father, who is guiding light from the heavens above.

During this one year of my tenure I have kept the momentum of overall progress of the association, which helped the members. We, the orthopedic surgeons are always targeted by the public, by the media and by the men of all walks of life including our own colleagues in other specialities. An incident involving four orthopedic surgeons was given maximum publicity though there was no truth in it. We instituted an enquiry and found that media persons were not willing to come forward to give unedited versions of evidence supposed to be possessed by them. It showed that the entire thing was a fabricated one. I wish to tell our members that we are all passing through a phase where everybody loves to hate us. I urge all the members to be united to nullify the efforts of others to belittle us.

In this short period of time, I did make efforts to popularize the orthopedic oncology and I wish to thank all the state chapters who invited me to attend their conferences indirectly helping me to achieve this endeavor.

I take this opportunity to thank everybody and request young orthopedic surgeons of our association to publish their good works in our Journal.

Jai Hind and Jai IOA,

JAI IOA.

Chage Kalya

FROM THE HONORARY SECRETARY'S DESK

Dear Members,

I bring wishes and greetings from Chennai during this festive season for all of us. I am sure all the members are gearing up to attend the IOACON at New Delhi one month ahead of our regular schedule for the annual conference. This resulted in short period of stay of the present executive committee headed by our President Dr Mayil V Natarajan. During this interim period many activities have happened.

IOACON 2006 – Central Program committee meetings:

The central program committee met at New Delhi on 2nd and 3rd of September 2006 and discussed the arrangements made. The entire scientific material was screened and the details of the guest lectures, eponymous lectures were finalized. The important competitive medal papers were screened along the scientific committee chaired by Prof Sudhir Kumar and Prof A K Jain. The venue was inspected and found to be satisfactory. The financial matters were discussed in detail and the committee found that the treasurer was not aware of financial position. Hence the central program committee met again in the last week of the September and cleared all doubts and resolved that the guidelines given in the blue book has to be followed in sending the monthly reports to treasurer and the President elect.(the minutes of the meetings are published in this newsletter)

CNN – IBN exposure of orthopedic surgeons:

This private channel alleged that it has exposed orthopedic surgeons willing to amputate healthy limbs for gain and named four orthopedic surgeons names. It was found that all four of them were our members. This news was provocative and sensational resulting in damage to the properties of said doctors. I received calls from Dr Maghu and from Our past president Dr NS Laud immediately after seeing the live telecast. President immediately called for an emergency meeting with few of the core members and members of Delhi Orthopedic association. The meeting was held on 1st August 2006 and it was resolved to form a committee with Dr Raj Bhadhur, Dr B K Dhaon and Dr M K Maghu to enquire the entire thing and submit a report. The committee's report is published in this newsletter. I am glad to inform you that the committee has not been able to come to conclusions because CNN IBN channel's representatives did not turn up, I presume our members are innocent.

Membership Drive:

I am glad to inform you that 344 new applications have been received by IOA office to become new LIFE MEMBERS. Their names have been published in the following pages. I must thank for the efforts of Joint Secretary Dr Lalit Maini who has written to all full members with dues and persuaded them to become life members. Many have them become life members and dues have been collected. I have given the list of the full members who have not responded to our letters. I am constrained to inform the members that if the dues are not settled even after three reminders the association will have no choice except to remove them from the membership.

Membership Certificates:

The new applicants for the life membership can have their membership certificate from the IOA counter at the IOACON 2006 after their names are ratified in the General Body. ie., 12-11-2006.

AFFILIATION OF STATE CHAPTERS:

Already 14 states have got affiliated with IOA. This year the OSSAP of Andhra Pradesh has applied for the affiliation and they will receive their affiliation certificate during the General Body meeting of IOACON 2006. I request non affiliated state chapters to get affiliated soon.

IOAICL 2007:

Dr Varunjikar of Satara Orthopedic Society is conducting the IOAICL 2007 at Mahabaleshwar on 6th, 7th and 8th of April 2007, The theme of the course is "complications in fracture management – solutions to the problems". Members are requested to attend the course and get the benefit of the academic discussions.

IOACON 2008:

Till date no state chapter has come forward to hold the conference. The venue has to be decided in the general body meeting and I have been receiving letters from various members that IOA should conduct future conferences with event managers and should identify few centres for holding the conference.

CME Program during IOACON:

The West Bengal Chapter has been conducting the CME for the past three years and this year CME has been dedicated to Late Prof M Natarajan. Starting from 2007 we needed one of the chapters to take it up. Tamil Nadu Orthopedic Association has come forward to hold the CME for three years

IOA activities for the Physically Challenged:

Dr T K Maitro has received the good work done by our members for the physically challenged and during the IOACON we are going to have session on Disability evaluation. I have received personally the work done by Dr M M Bapna of Bharatpur and have forwarded to Dr T K Maitro

IOACON 2005 Mumbai:

I am glad to inform you that few days ago I have received 8 Lakhs of contribution from Dr Ram Prabhoo the Organising secretary of IOACON 2005. With this contribution totally Dr Ram Prabhoo and his team has provided a total of 55 lakhs as contribution. We thank them for their contribution

New Travelling Fellowships:

I am glad to inform that Dr Suresh Rao , President, Indian Orthopedic society, UK (IOSUK) has come forward to provide 3 travelling fellowships to practicing orthopedic surgeon from India for a period of 2 weeks to visit centres of excellence at UK and to participate in the summer meeting of BOA. Details are elsewhere in this newsletter. During this year of IOA, a major change has been shifting of the activities of the association to its central office. We receive new membership applications at IOA House and most of the communications can be obtained from there. I would personally thank Dr Sudhir Kapoor , our Treasurer and Dr Lalit Maini, efficient Joint secretary for their unstinted support and help. Mr Ramesh Panday our office executive at Delhi office has been extremely helpful in conducting the day to day affairs of the association and my special thanks are due to him. I welcome constructive criticism from members .

Awaiting to see You all during IOACON at Delhi,

Jai Hind & Jai IOA,

Yours truly,

Dr. R.H. Govardhan

The same would be conveyed on the receipt of registration.

ACADEMIC PROGRAMMES IN UK ARRANGED BY IOSUK :

SCIENTIFIC PROGRAMME DURING THE ANNUAL SUMMER CONFERENCE OF THE IOSUK.

This includes guest lectures and two sessions of original free papers.

Meetings have so far been held at Eastbourne, Keswick, Manchester, Birmingham, Durham-Newcastle, Leeds and London. The next meeting is in June 2007 at Birmingham and in 2008 at Liverpool. Presidents of BOA and IOA are invited guests.

IOSUK Indo-British Travel Fellowships for Orthopaedic Surgeons from India to visit UK

This is similar to the ABC Travel Fellowship of the BOA and American Association of Orthopaedic Surgeons. Each year three surgeons from India are selected by IOSUK to visit various centres in UK for a period of 2 weeks in September. They attend training workshops, teaching sessions and operating theatres in Manchester, Oxford and Wrightington hospitals and are also given the opportunity to present their own work. The visit ends at the BOA annual conference as the official guests of the President.

Biomet has been sponsoring the 3 Fellowships for the last 2 years, looking after their travel, stay and also paying their fees to attend the Unicdylar Knee workshop at Oxford. In 2005 the Fellowships were awarded to Profs Vernon Lee (Vellore), Shrinivas Rao (Rajkot) and Anil Bhatia (Mumbai) and in 2006 to Profs Anil Arora (Delhi), Vijayaraghavan (Chennai) and Shridhar Murthy (Bangalore).

Applications for 2007 Fellowships will be available during the IOA meeting in New Delhi.

Course for FRCSOrth Examination is open to overseas orthopaedic surgeons from 2007. IOSUK has arranged courses for candidates from India to familiarise them with the exam. The next course will be held on 14 Oct 2006 at Kings College London.

IOSUK Travel Awards for British Registrars to visit India

The IOSUK has arranged for many Specialist Registrars in their final years of training to visit orthopaedic centres in India. The exposure to orthopaedic problems in India has been invaluable to them.

Final year elective attachments for medical undergraduates :

IOSK has been providing informal contacts for final year British medical students to work in various hospitals in India for 6-8 weeks. Manchester Medical School is planning an exchange programme with Bangalore University. This will also help in exposing Indian medical students to British medicine.

Award for Innovation to an Orthopaedic surgeon working in India :

IOSUK has just announced this award to be made available from 2007 which will enable the awardee to visit a centre of his choice to develop the innovation further. Biomet India has provisionally agreed to support, selection criteria for award and arrangements to present the award at IOACON 2007 to be finalised.

For further information on any of the above please contact the Fellowship sub-committee of the IOS(UK) at www.indianorthopaedicsociety.org.uk
